## FOREWORD

The International Telecommunication Union (ITU) is the United Nations specialized agency in the field of telecommunications, information and communication technologies (ICTs). The ITU Telecommunication Standardization Sector (ITU-T) is a permanent organ of ITU. ITU-T is responsible for studying technical, operating and tariff questions and issuing Recommendations on them with a view to standardizing telecommunications on a worldwide basis.

The World Telecommunication Standardization Assembly (WTSA), which meets every four years, establishes the topics for study by the ITU T study groups which, in turn, produce Recommendations on these topics.

The approval of ITU-T Recommendations is covered by the procedure laid down in WTSA Resolution 1.

In some areas of information technology which fall within ITU-T's purview, the necessary standards are prepared on a collaborative basis with ISO and IEC.

## CAUTION! PREPUBLISHED CONTRIBUTION

This prepublication is an unedited version of a recently approved Contribution. It will be replaced by the published version after editing. Therefore, there will be differences between this prepublication and the published version.

**1. Specific contents: could be introduction or something more substantive**

[Your text starts here.

Before submitting this document:

- Update the information in the document attributes: document number (n), Question(s), source, title, contact information and abstract.
- Make sure that the title and the source or sources inserted in your Contribution (word document) are the same inserted in the DDP online form.
- If you need more contact information rows, keep adding attributes with an incrementing number (fullname\_3, fullname\_4, fullname\_5 etc.)
- Remove this text.

]

[ADD TEXT.]

**Table 1 — Example of a table**

Number	Observation
1	Sample table
2	Table header (1st row) uses style Table_head
3	Other table rows use style Table_text
4	Heading with table number uses style "Table_No & title"
